### DAĞGAZ ODORANT DESIGNED TO PREVENT CONTAMINATION

#### Product Info

The Dağgaz Odorant Filter is designed to keep the impurities.

Simple design offers convenience.

It is very easy to clean and maintain.

Suitable for different chemical species.

It keeps the contaminants that may be present in the incoming fluid and sends it clean to the system.

It does not allow solid particles to pass through.

10 bar can be used with input pressure.

It is made of SS 316 or SS 304 stainless steel material on request.

We also produce customized products according to the wishes of our customers.
